1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Day

Fed-Ex does not guarantee Ground delivery transit times. Please use your discretion when shipping packages Ground for guaranteed delivery dates.

Shipping Methods for International Orders

Please allow extra time (up to 2 weeks additional processing time for all international orders)

USPS Priority Mail International (\$80USD):

Transit time is 10-15 business days, which does not include time in customs.

Time in customs may vary from a few days to 6 weeks and is out of our direct control.

We offer USPS Priority Mail because it is an affordable option and includes online tracking.

Priority Mail is frequently delayed at customs. If you choose this method, we ask that you have at least an 8 week delivery window from the time your order ships to the time you need to receive your order.

Lady Jae Designs is not responsible for delays due to customs. If your order is time sensitive, please select UPS Worldwide to ensure a timely delivery.

UPS Worldwide (\$150USD):

Transit time of 3-5 business days and is time-definite. We highly recommend UPS Worldwide for international shipments as it is much faster and reliable than shipping by USPS Priority Mail (post).

When shipping internationally, customs, taxes, brokerage and other import fees are the responsibility of the buyer.

Our international shipping prices do NOT include any taxes, brokerage, or other fees that may be applied to your order upon delivery in your home country. Payment of customs, taxes, duties and all other fees associated with buying overseas merchandise is the responsibility of the buyer.

Please check your home country's rules on purchasing merchandise from the US for more information.
